

## **Niagara Falls Storage Site News from the Corps**

Sent Wed 3/27/2019 2:02 PM

Hello from the U.S. Army Corps of Engineers Buffalo District:

The record of decision with the selected remedy of excavation, partial treatment, and off-site disposal of the entire contents of the Interim Waste Containment Structure is now available on the web at:

<https://www.lrb.usace.army.mil/Missions/HTRW/FUSRAP/Niagara-Falls-Storage-Site/>

In the Reports Section, scroll down to the Interim Waste Containment Structure (IWCS) Documents part of that section and then it will be the top document.

The direct link to the document is:

<https://www.lrb.usace.army.mil/Portals/45/docs/FUSRAP/NFSS/Documents/IWCS-ROD-final-with-ASA-signature-Redacted.pdf?ver=2019-03-27-112716-497>

The Corps of Engineers follows the Comprehensive Environmental Response, Compensation, and Liability Act for Formerly Utilized Sites Remedial Action Program (FUSRAP) sites. The Interim Waste Containment Structure Operable Unit of the site now moves into the remedial action phase.

Before remedial action can begin there are many steps to be completed, the first being the appropriation of funds. The Corps receives its FUSRAP funding in one-year increments and cannot predict future funding levels or the projected start date for remedial action. The Corps statements on funding in the record of decision document can be found at Attachment-1 Transcript of the Public Meeting Held at the Lewiston Senior Center on January 13, 2016 (p. 9-10) and Attachment-2 Responses to Comments on the Feasibility Study for the Interim Waste Containment Structure (December 2015) and the Proposed Plan for the Interim Waste Containment Structure (December 2015), Niagara Falls Storage Site, Lewiston, New York (comments #3 and #23).
