Legacy
Management

DOE Role in FUSRAP

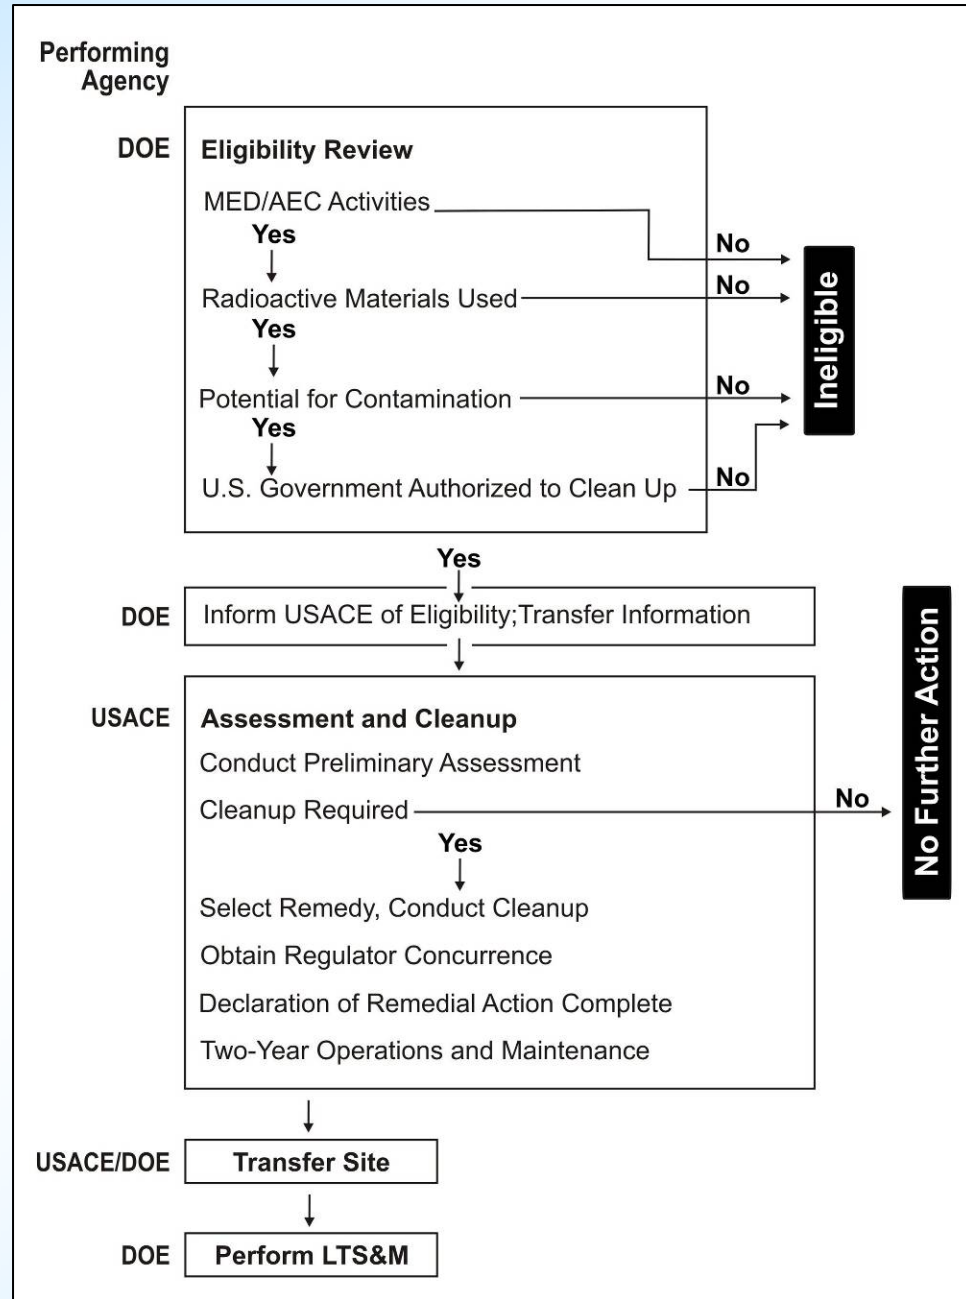

- The 1998 and 1999 Energy and Water Development Appropriations Acts assigned cleanup role to U.S. Army Corps of Engineers (USACE)
- The 1999 Memorandum of Understanding defined roles and responsibilities
- DOE is responsible for determining eligibility and providing long-term care
- USACE is responsible for assessment, remediation, and regulatory closure

DOE Role in FUSRAP (continued)

From *Process for Transition of Responsibilities for Formerly Utilized Sites Remedial Action Program Sites from the U.S. Army Corps of Engineers to the U.S. Department of Energy for Long-Term Surveillance and Maintenance, Waste Management 2006*

Note: USACE assessment and cleanup follows the CERCLA process

DOE Activities at Completed NFSS Vicinity Properties

- Stakeholder support
 - Maintain and provide access to records
 - Respond to requests for information
- Evaluations
 - Review assessment, remedial action, and verification records for selected properties
 - Evaluate risk at time of closure and under current land use
 - Ensure record collection is complete
 - Capture findings in report for stakeholders and future stewards

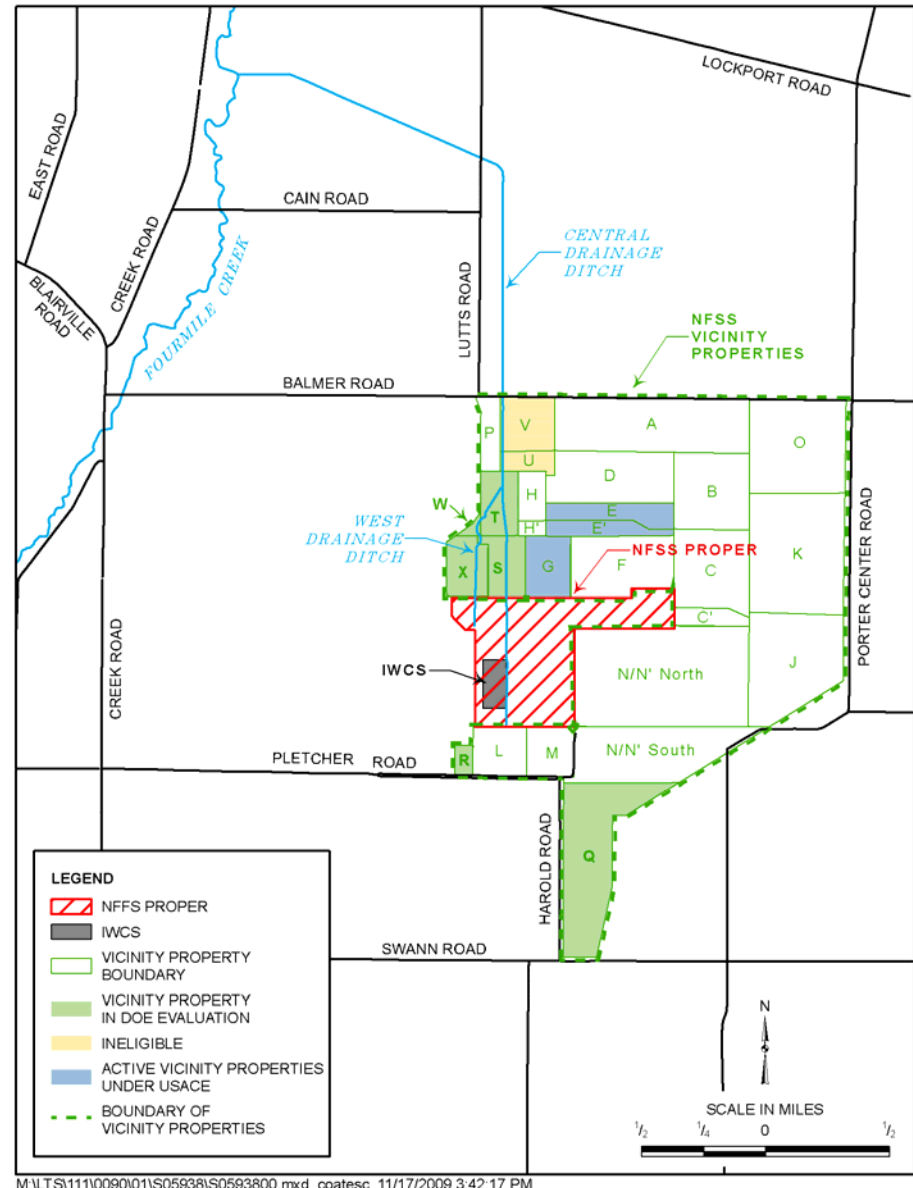

DOE Activities at Completed NFSS Vicinity Properties (continued)

Rationale for properties selected for evaluation:

Accessible to public: Q, R, X, CDD, WDD

Stakeholder interest: X

Adjacent to X and NFSS, borders CDD: S, T, W

DOE Activities at Completed NFSS Vicinity Properties (continued)

- Preliminary findings
 - DOE remediated soil contamination
 - All accessible areas of site surface were assessed
 - Assessed contamination was remediated
 - DOE released sites for existing use without restrictions
 - Land use has not been reviewed since completion
- DOE encourages stakeholder input
- DOE summary report will be released in March 2010
 - Assess protectiveness and compliance
 - Evaluate additional or new information
 - Present recommendations
- Site information is posted at www.LM.doe.gov
