SUBJECT: Work Plans for Upcoming Efforts at Seaway

Harter, Secrest & Emery  
ATTN: [redacted] A. [redacted]  
One HSBC Center, Suite 3550  
Buffalo, NY 14203-2884

Dear [redacted]:

The U.S. Army Corps of Engineers is performing a CERCLA investigation regarding MED-related materials placed in the Seaway Landfill. Our contractor, SAIC Engineering, Inc., has discussed these activities with you in the past. I would like to update you regarding upcoming activities and provide current information.

We are currently scheduled to mobilize to the Seaway Site the week of August 13 to perform some additional characterization in Areas A, B, and C. I have enclosed a copy of the Final Sampling and Analysis Plan (SAP) and Site Safety and Health Plan (SSHP) that was also provided to the regulators.

If you have any questions regarding this material or the upcoming activities, please feel free to call me at [redacted] 76.

Sincerely,

**SIGNED**

[redacted]  
Project Manager
