

## **Tonawanda Landfill Vicinity Property News from the Corps**

Sent: Thu 9/27/2018 8:29 AM

Hello from the U.S. Army Corps of Engineers Buffalo District:

We are pleased to announce the award of two contracts for the remediation of the Landfill Operable Unit at the Tonawanda Landfill Vicinity Property under the Corps' Formerly Utilized Sites Remedial Action Program (FUSRAP). A remedial action contract was awarded to Plexus Scientific Corporation of Alexandria, Virginia. This contractor will remove FUSRAP materials from the Landfill Operable Unit to a depth of five feet below ground surface as specified in the 2017 Record of Decision. A second contract was awarded to Environmental Rail Solutions of Monmouth Beach, New Jersey, to transport and dispose of the excavated FUSRAP materials at a permitted disposal facility outside of New York State.

Field work is expected to begin in the summer of 2019. To ensure a safe and successful project, the Corps will work with our contractors to prepare detailed work plans, focused on the safety of our workers and the community. The Corps will also continue working with city, town, and state officials to carefully coordinate all work. Prior to the start of field work, the Buffalo District will also conduct a public information session to explain the proposed work and answer questions.

Additional information is available on our public website at:

<https://www.lrb.usace.army.mil/Missions/HTRW/FUSRAP/Tonawanda-Landfill/>.

We will periodically send you News from the Corps emails as new information is available regarding the cleanup. If you know someone that is interested in our progress, please ask them to send an email to [fusrap@usace.army.mil](mailto:fusrap@usace.army.mil) and ask to be added to our electronic and/or postal distribution lists.
