**RESPONSES TO DOE-HQ COMMENTS ON THE WORK PLAN-
IMPLEMENTATION PLAN FOR THE TONAWANDA SITE
(DECEMBER 1992 DRAFT)**

Responses to comments that were not incorporated and explanations for certain comments that were incorporated are provided below. Other comments that were incorporated and need no explanation are not included.

Page Number	Response
Page i, note	When the FS is referred to in the document, it is described as the FS component of the RI/FS-EIS instead of the FS-EIS or FS/PP-EIS.
Page ii	Except for changing the date, the comments on this page were not incorporated because doing so would alter the standard title page format and would make the title page inconsistent with all other FUSRAP document title pages.
Page iv	Changes were made except for incorporating 1990-91 work in the text; 1990-91 is when the field work was completed.
Page xvii	The acronym EIS was added to p. xvii. WP-IP is on p. xix.
Page 1-6	Incorporated. Executive Order 1987 is cited in the reference section as Executive Order 12580, 1987.
Page 3-19	Appropriate changes have been made in the text; Table 3-1 has been deleted because its information is clearly presented in the text.
Page 3-20	See response to comment on page 3-19.
Page 3-21	Appropriate changes have been made in the text.
Page 3-22	The text was revised to indicate which data gaps were identified and which still need to be investigated. To fill these gaps, the second phase investigation was performed in 1990-91, and results are reported in the remedial investigation report.
Page 3-23	Appropriate changes have been made in the text.
