**Meeting to air
river cleanup**

Progress on reducing levels of toxics in the Niagara River will be the focus of a public meeting scheduled by federal and state environmental agencies.

The Environmental Protection Agency and Department of Environmental Conservation will hold the meeting from 5 to 7 p.m. July 12 in the Best Western Inn on the River, 7001 Buffalo Ave., Niagara Falls.

The agencies will present their six-month update on the river's toxic loading from hazardous waste sites. The session will include a question-and-answer period.
