OGDENSBURG HARBOR — OGDENSBURG, NEW YORK
Small Navigational Projects
Section 107 of the Rivers & Harbors Act of 1960, As Amended
Construction General (Continuing Authorities Program)

**Location**
- Ogdensburg Harbor is located at the mouth of the Oswegatchie River in Ogdensburg, St. Lawrence County, New York.

**Project Description**
- Section 107 provides for improvements to navigation including dredging of channels, widening of turning basins, and construction of navigation aids.
- Potential navigation improvements include deepening the lower east channel and lower basin.
- Cost share for design and implementation is 65 percent federal, 35 percent nonfederal (25 percent during construction, 10 percent over no more than 30 years after construction).

**Importance**
- The Port of Ogdensburg is the only U.S. port on the St. Lawrence Seaway.

**Consequence**
- Without navigation improvements, the inadequate depth of the lower east channel and lower basin ship berthing will persist, causing unnecessary congestion, increased handling costs, and lost business opportunities.

(1) First $100k is at 100 percent federal expense.

**Project Sponsor/Customer**
- Ogdensburg Bridge and Port Authority. Project Partnership Agreement signed March 31, 2017.

**Congressional Interests**
- Representative Elsie Stefanik R NY-21
- Senator Kirsten Gillibrand D NY
- Senator Charles Schumer D NY

**Current Status**
- Completed design in February 2019.
- Contract award and construction will proceed once the non-federal funding is received.
- Sponsor received commitment from New York State Department of Transportation to provide funding (June 2020).

**Issues**
- Receiving non-federal funding prior to federal funding transfer to another project.
Notes:
1) Yellow box is area to be deepened (currently 19 feet down to 27 feet).
2) Red line is the route from the port to the airport disposal site.
3) Larger view of the yellow box area on next page.
Dock wall extension (500 feet) to be constructed by the port authority.
