Little River Harbor, NY

Harbor Features

- Located along the Niagara River in the City of Niagara Falls, Niagara County, NY
- Authorization: River & Harbor Act of 1954
- Shallow draft recreational harbor
- Project consists of an entrance channel approximately 1,200 feet long and 50 to 200 feet wide.
- Project depth is 8 feet in the entrance channel
- Major stakeholders consist mainly of the recreational boating community.

Project Requirements

- The harbor requires approximately 10,000 cubic yards of dredging on an infrequent basis to maintain the navigation channel. The harbor was last dredged in 1988.
- Maintenance dredging is currently required to maintain the functional harbor areas.

Consequences of Not Maintaining the Project

- Failure to dredge will result in continued shoaling, reduced channel dimensions, and potentially unsafe navigation conditions.
- Potential safety issues for recreational boating community
- Negative economic impacts, locally and regionally

Transportation Importance

- Provides safe access between Little River and Niagara River
