U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG®

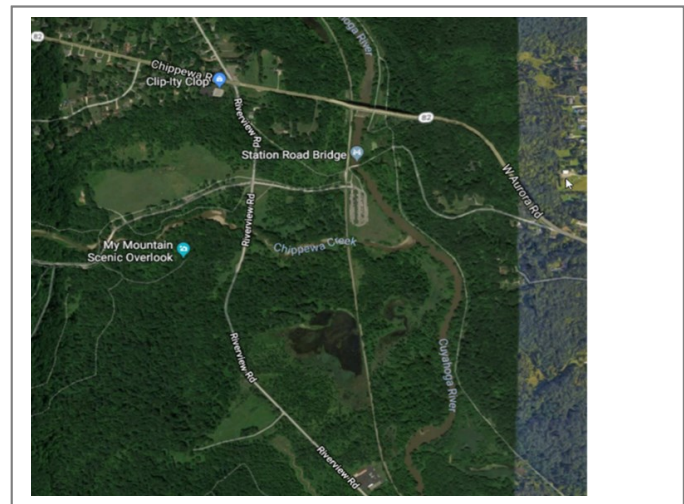

AUTHORIZATION:

- US Environmental Protection Agency – US Economy Act

PROJECT SPONSOR:

- US Environmental Protection Agency

LOCATION:

Congressional Member Interest	Key Stakeholder Interest
Senator Sharrod Brown	Representative Bill Roemer – D-OH-31
Senator J.D. Vance	
Rep. Emilia Sykes D-OH-13	

PROJECT DESCRIPTION AND BACKGROUND:

- The primary objective of this project is restoration of approximately 18,000 linear feet of the Cuyahoga River and reforestation of 3 acres within the surrounding floodplain, which are within the boundary of the Cuyahoga Valley National Park (CVNP). The result will be an ecological diverse stream and wetland system dominated by native vegetation and able to support a diverse community of native insects, amphibians, birds, and other wildlife. The restoration of the streambank will help reduce sediment runoff downstream and reforestation of the surrounding area will allow for the establishment of native vegetative species.
- Under the USEPA Economy Act Authority, both the United State Environmental Protection Agency (USEPA) and CVNP reached out to the Buffalo District to perform this restoration effort. This effort is an ongoing collaboration between the agencies, within the region. The USEPA will fully fund the project, while the CVNP will provide real estate within the Park’s boundaries. This project will assist with re-establishing large segments of the Cuyahoga River, re-establishing native vegetation, reducing
