¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.

and information collected during the November 15, 2017 site visit, did not reveal any aquatic resources, including wetlands, or hydrology signatures within the review area. The site is located within the NYDEC Environmental Resource Mapper-States Regulated Wetland Checkzone area; however, it is not located within any mapped, state regulated freshwater wetlands. Based on the aforementioned information, the Corps has determined the 0.406 acre review area consists entirely of dry lands.
