² If the navigable water is not subject to the ebb and flow of the tide or included on the District’s list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

Excluded waters ((b)(1) – (b)(12)): ⁴

Wetland 1	6.867 acre(s)	(b)(6) Prior converted cropland.	Wetland 1 on the subject property is within an agricultural areas that has been mapped by the USDA as prior converted cropland prior to 1985. The area in question is currently under an active CRP plan that extends through September 2020. The USDA identifies this area as CP4D - Permanent Wildlife Habitat cool-season or warm-season (CSG/WSG) and CP38E -State Acres For Wildlife (SAFE) Grass - Native Grasses & Forbs. Both of which required a cropping history.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
