

**U.S. ARMY CORPS OF ENGINEERS
REGULATORY PROGRAM
APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)
NAVIGABLE WATERS PROTECTION RULE**

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): 1/6/2021
 ORM Number: LRB-2020-00083 (Developers Management, LLC)
 Associated JDs: Preliminary JD will be issued for Wetlands A, B,D,E, F, G, H, J, K and Streams 1, 2, 3, 4, 5, 6, 7, 8, 9, 10. Wetland C and Wetland I will be on this AJD Form under Excluded Waters
 Review Area Location¹: State/Territory: Ohio City: Brunswik Hills Township
 County/Parish/Borough: Medina
 Center Coordinates of Review Area: Latitude 41.218748 Longitude -81.791236

II. FINDINGS

A. Summary: Check all that apply. At least one box from the following list MUST be selected. Complete the corresponding sections/tables and summarize data sources.

- The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A or describe rationale.
- There are “navigable waters of the United States” within Rivers and Harbors Act jurisdiction within the review area (complete table in Section II.B).
- There are “waters of the United States” within Clean Water Act jurisdiction within the review area (complete appropriate tables in Section II.C).
- There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in Section II.D).

B. Rivers and Harbors Act of 1899 Section 10 (§ 10)²

§ 10 Name	§ 10 Size	§ 10 Criteria	Rationale for § 10 Determination
N/A.	N/A.	N/A.	N/A.

C. Clean Water Act Section 404

Territorial Seas and Traditional Navigable Waters ((a)(1) waters): ³			
(a)(1) Name	(a)(1) Size	(a)(1) Criteria	Rationale for (a)(1) Determination
N/A.	N/A.	N/A.	N/A.

Tributaries ((a)(2) waters):			
(a)(2) Name	(a)(2) Size	(a)(2) Criteria	Rationale for (a)(2) Determination
N/A.	N/A.	N/A.	N/A.

Lakes and ponds, and impoundments of jurisdictional waters ((a)(3) waters):			
(a)(3) Name	(a)(3) Size	(a)(3) Criteria	Rationale for (a)(3) Determination
N/A.	N/A.	N/A.	N/A.

¹ Map(s)/figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District’s list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

NAVIGABLE WATERS PROTECTION RULE**

Adjacent wetlands ((a)(4) waters):			
(a)(4) Name	(a)(4) Size	(a)(4) Criteria	Rationale for (a)(4) Determination
N/A.	N/A.	N/A.	N/A.

D. Excluded Waters or Features

Excluded waters ((b)(1) – (b)(12)): ⁴			
Exclusion Name	Exclusion Size	Exclusion ⁵	Rationale for Exclusion Determination
Wetland C	0.03 acre(s)	(b)(1) Non-adjacent wetland.	Observations indicate that these wetlands are non-adjacent b(1) waters. These wetlands do not meet any of the four criteria that would make an (a)(4) adjacent water subject to jurisdiction under Section 404 of the Clean Water Act. These wetlands were circumnavigated during the Corps' site visit on July 7, 2020. No defined channels/tributaries/ditches were observed flowing from these wetlands to any (a)(1-3) water. Based on site observations the nearest a(1-3) waters would not flood any of the wetland areas at least once during a typical year. Also, there are no artificial or natural berms or the like located between the a(2) onsite waters and these wetlands. Based on the above it has been determined that these wetlands are b(1) excluded waters.
Wetland I	0.24 acre(s)	(b)(1) Non-adjacent wetland.	Observations indicate that these wetlands are non-adjacent b(1) waters. These wetlands do not meet any of the four criteria that would make an (a)(4) adjacent water subject to jurisdiction under Section 404 of the Clean Water Act. These wetlands were circumnavigated during the Corps' site visit on July 7, 2020. No defined channels/tributaries/ditches were observed flowing from these wetlands to any (a)(1-3) water. Based on site observations the nearest a(1-3) waters would not flood any of the wetland areas at least once during a typical year. Also, there are no artificial or natural berms or the like located between the a(2) onsite waters and these wetlands. Based on the above it has been determined that these wetlands are b(1) excluded waters.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
