Cleveland, Ohio 44115

Dear Ms. Dreyfuss Wells:

This pertains to the Northeast Ohio Regional Sewer District's application for a Department of the Army permit to discharge fill material into 0.021 acres of Federal jurisdictional wetlands in association with maintenance of the existing security fencing at the Easterly Waste Water Treatment Plant located within the city of Cleveland, Cuyahoga County, Ohio (Sheets 1-2).

I have evaluated the impacts associated with your proposal, and have concluded that they are authorized by the enclosed Nationwide Permit (NWP) provided that the attached conditions are satisfied.

Verification of the applicability of this NWP is valid until March 18, 2022 unless the NWP is modified, suspended, revoked, or the activity complies with any subsequent permit modification. Please note in accordance with 33 CFR part 330.6(b), that if you commence or are under contract to commence an activity in reliance of the permit prior to the date this Nationwide permit expires, is suspended or revoked, or is modified such that the activity no longer complies with the terms and conditions, you have twelve months from the date of permit modification, expiration, or revocation to complete the activity under the present terms and conditions of the permit, unless the permit has been subject to the provisions of discretionary authority.

It is your responsibility to remain informed of changes to the NWP program. A public notice announcing any changes will be issued when they occur and will be available for viewing at our website: <http://www.lrb.usace.army.mil/Missions/Regulatory.aspx>. Finally, note that if your activity is not undertaken within the defined period or the project specifications have changed, you must immediately notify this office to determine the need for further approval or reverification.

In addition to the general conditions attached to the NWP, your attention is directed to the following Special Conditions which are also appended at the end of the NWP General Conditions:

SUBJECT: Department of the Army Permit No. LRB-2019-01290, Nationwide Permit No. 3 as Published in the Federal Register, Volume 82, No. 4, on Friday, January 6, 2017.

1. At the request of an authorized representative of the Buffalo District, U.S. Army Corps of Engineers, the permittee must allow access to the project site to determine compliance with the conditions of this permit.
2. The permittee must provide a copy of the permit to all contractors, subcontractors, and/or workers performing the work authorized by the permit and ensure they have knowledge of the terms and conditions of the permit, including all General and Special Conditions. Prior to commencing work authorized by this permit, a copy of the permit and drawings must be visibly posted at the construction site.
3. To reduce any potential adverse effects on the Federally endangered Indiana bat (*Myotis sodalis*), trees (woody stems greater than 5 inches Diameter at Breast Height) must not be cut between April 1 and September 30, of any year.
4. To reduce any potential adverse effects on the Federally threatened Northern long-eared bat (*Myotis septentrionalis*), trees (woody stems greater than 3 inches Diameter at Breast Height) must not be cut between April 1 and September 30, of any year.

This affirmation is limited to the attached NWP and associated Water Quality Certification, and does not obviate the need to obtain any other project specific Federal, state, or local authorization.

A copy of this letter has been sent to the Ohio Environmental Protection Agency, to Ms. Sarah Andersson (Northeast Ohio Regional Sewer District) and to Ms. Sarah Rehner (Northeast Ohio Regional Sewer District).

Questions pertaining to this matter should be directed to me at 716-879-4339, by writing to the following address: U.S. Army Corps of Engineers, 1776 Niagara Street, Buffalo, New York 14207, or by e-mail at: keith.c.sendziak@usace.army.mil
